Announcement

Bonney Forge Corporation sadly announces the sudden passing of Mrs. Margaret Willie Leone. She became very ill and was hospitalized over this weekend and then peacefully passed into eternal rest today.

Born September 3, 1935, Willie Leone was 77 years old.

Margaret Willie Leone (Cunningham), was the wife of John A. Leone our President and CEO and the love of his life. They were loving partners in life for over 57 years.

Willie was not only John Leone's princess and partner in life but she was also known for being an Ice Follies Princess in her earlier days.

Willie was the Leone Family Matriarch and she was known for her constant grace, love, and determination throughout her life both in good and bad times alike. She possessed a deep and abiding love for all of her family, was considered a great mother by her children, and a special grandparent who unconditionally loved all of her grandchildren.

Willie was the consummate host, a beloved and valued friend to all of us here at Bonney Forge/WFI/BFE and wherever she traveled. She will be greatly missed by each of us.

We would solicit your sympathy, thoughts and fervent prayers for all of those in the Leone Family.

Please understand that at the present time we do not have full understanding of the plans or details for memorial services and ask that you reserve contributions or flowers for a later time.

We expect many of our Bonney Forge family and friends will want to attend memorial services and we will keep you apprised of the details as they become available.
